Scan N Cut Cork Luggage Tag
Instructor: Colleen Neutzling

This is a quick fun project. We will create a stylish cork luggage tag using basic shapes in the Scan N Cut so no computer will be required! Sewing the luggage tag will be completed at home. The finished tag is 3" by 5 1/2".

Supplies

Please bring to class:

Scan N Cut machine
Scan N Cut 12 x 12 standard mat
Scan N Cut Standard Blade
Painters tape
6" by 12" Cork Fabric (I do not recommend cork fabric with a very fuzzy backing.)

The following supplies will be needed to complete the luggage tag at home:

Sewing & Craft Double Faced Basting Tape
1 Kam plastic snap size 20 long
3" by 4" of 12 gauge clear vinyl
12" of ¼" Satin Elastic
6" square scrap of lightweight tear away stabilizer
Universal Needle size 80/12
Thread to complement or match the snap and sating elastic
Bobbin wound with the matching thread
Edge joining foot and open toe foot for your sewing machine
Craft scissors for cutting the double faced basting tape
