

# Scan N Cut

## How to combine multiple SVG files in CanvasWorks

### October 20, 2018

#### **Supplies**

Please bring to class:

- Scan N Cut
- 12 x 12 Regular Mat
- Tea towel
- 3 colors of heat transfer vinyl. One of the colors cannot be glitter flake.
- Computer or tablet – this is a must in order to follow along in class with CanvasWorks

In this class we will learn how to import multiple SVG files and then delete portions of the files to create your own unique design. We will also learn how to layer HTV.

Call me if you have any questions.
