

# Swirly Table Runner

You will need 2 pieces of fabric, amount will vary depending on size of hoop using and how many segments you want to make. I used ½ yard of each fabric using the 10 5/8 x 16 hoop with four segments being made.

You will need 2 pieces of water soluble stabilizer for each hooping.

You will need batting for each hooping.

You will need thread and multiple bobbins wound with coordinating or contrasting thread. I used 5 bobbins for the 4 segments. You can use two threads if desired or just use one color.

I found using my applique scissors very helpful

You will need your embroidery machine, hoop, embroidery foot and power cord.

Please let me know if you have any questions.
